Step 2: Edit Your Info

[CLICK TO EDIT or Import via Facebook](#)

Build Number:
This number is the amount of resources your card takes to build, similar to your card's "cost". Read the instruction booklet for more info. Un-editable.

Card Picture:
Upload an image by clicking on the picture. If you imported via facebook this is your profile picture.

Speed, Health, Power
These three elements determine different aspects in the game. You have 15 points total to maneuver in any way you see fit. To learn more read the gameplay booklet.

Player Profile:
This sets your special abilities set below your profile picture. You can either be designer, developer, or business. Feel free to edit this in Step 1.

Special Abilities:
These un-editable abilities are determined by your Player Profile you chose in Step 1. However, you should edit your quote. The symbol is the rarity of your card followed by its collection number (which is always 117+ for custom cards).
